Data On

ILLINOIS PUBLIC WATER SUPPLIES

June 1, 1944

Compiled by
Division of Sanitary Engineering
~~CLARENCE W. KLASSEN~~
William J. Downer, Chief Sanitary Engineer

SUMMARY OF ILLINOIS PUBLIC WATER SUPPLIES

SOURCES:

Total number of sources.....	594
Ground Supplies:	
Rock well.....	229
Drift well.....	230
Combined rock and drift wells.....	9
Springs.....	5
Combined well and springs.....	5
Mine shaft.....	1
Infiltration gallery and wells.....	1
Total.....	480
Surface Supplies:	
Lake Michigan.....	11
Streams.....	39
Impounding reservoirs.....	62
Total.....	112
Combined impounding reservoir and wells.....	2

MUNICIPALITIES:

Total number with public supplies.....	699
Supplies municipally owned.....	653
Supplies privately owned.....	46
Supplied by ground water.....	493
Supplied by surface water.....	206
Supplied by Chicago.....	39
Supplied by East St. Louis.....	17
Supplied by another municipality.....	55
Supplied by other municipalities total.....	111

PUMPAGE:

Total daily, entire State.....	1,153,000,000 gallons
Total daily, Chicago and connected suburbs.....	975,500,000 gallons
Total daily, exclusive of Chicago and connected suburbs.....	177,500,000 gallons
Daily per capita, entire State.....	183 gallons
Daily per capita, Chicago and connected suburbs.....	261 gallons
Daily per capita, exclusive of Chicago and connected suburbs.....	69 gallons

MINERAL QUALITY OF SOURCES:

Highest total mineral content at Ipava.....	2964 p.p.m.
Lowest total mineral content at St. Elmo.....	65 p.p.m.
Hardest mineral content at Western Springs.....	943 p.p.m.
Softest at New Baden.....	12 p.p.m.
Highest iron content at Prairie du Rocher.....	30.1 p.p.m.
Average hardness surface water.....	139 p.p.m.
Average hardness ground water.....	328 p.p.m.

TYPES OF TREATMENT:

Type	No. Ground Water	No. Surface Water	Total
Purification and chlorination.....	--	97	97
Purification, softening, and chlorination.....	--	13	13
Softening, iron removal, and chlorination.....	27	--	27
Softening and iron removal.....	39	--	39
Softening and chlorination.....	2	--	2
Softening only.....	6	--	6
Iron removal and chlorination.....	11	--	11
Iron removal only.....	33	--	33
Chlorination only.....	74	1	75
Chlorination for emergency.....	1	--	1
Rechlorination (Chicago water).....	--	3	3
Untreated surface supplies.....	--	1	1

POPULATIONS:

Served by public water supplies, total.....	6,318,896
Per cent of State's total supplied by public water supplies.....	80
Per cent of State's urban supplied by public water supplies.....	98
Supplied by Chicago water (Chicago and suburbs).....	3,737,643
Supplied outside Chicago and connected suburbs.....	2,581,253
Supplied by surface water.....	4,909,534
Supplied by ground water.....	1,409,362
Supplied by chlorinated water.....	5,724,861
Smallest incorporated municipality with public water supply: Symerton, Will Co.--	Population 82

STORAGE: (Excluding impounding reservoirs)

Ground.....	209,619,000
Elevated.....	68,542,000
Pressure tank.....	823,660
Total.....	278,984,660

TEN OLDEST PUBLIC WATER SUPPLIES:

Chicago.....	1843
Peoria.....	1868
Springfield.....	1868
Decatur.....	1870
Rock Island.....	1870
Morrison.....	1870
Riverside.....	1871
Jacksonville.....	1871
Quincy.....	1873
Litchfield.....	1873

LEGEND

OWNERSHIP	SOURCE	TREATMENT
M - Municipal	I - Impounding Reservoir	P - Purification
P - Private	C - Channel Dam	S - Softening
	em - Emergency	I - Iron Removal
		C - Chlorination
POWER USED	WELL PUMP TYPE	em - Emergency Chlorination
C - Coal	T - Turbine	ReC - Rechlorination
G - Gasoline	To - Turbine Oil Lubricated	
O - Oil	Tw - Turbine Water Lubricated	
N - Natural Gas	A - Air Lift	RATES
Art. Pres. - Artesian Pressure	D - Deep Well Pump (plunger type)	M - Monthly
Em - Electricity Generated by Municipally Owned Utility	S - Suction	2 M - Two Months
Ep - Electricity Generated by Privately Owned Utility	Gr - Gravity	Q - Quarterly
Tr - Tractor	Sl - Siphon	6 M - Semi-annually
		Y - Yearly

MISCELLANEOUS

* - Pressure Tank
p.p.m. - Parts Per Million
